

Today I would like to address some concerns regarding the property located at 11 West Quincy. I would like to ask the board if the following has been taken into consideration should the village permit the following establishment to open

In regards to the surrounding grade schools that are 500 feet away: Has the village taken into consideration the safety of the children and families during school hours, after school events, special services held and the ballet school a few doors down?

I am not certain of the hours of operation however; it will affect the surrounding families near by when customers leave this establishment. As you are well aware, Quincy is a one-way street that when existing they will have to drive through blocks of residential areas.

Parking is also a great concern since there is limited parking for the already existing business and their customers.

I also believe there is a conflict of interest in regards to placing a TAVERN next to Alcoholics Anonymous support group.

Currently there are several established taverns in Down Town Westmont, how many more are needed and what is the Community wishing to represent?
